From the President

Welcome to the 73rd Annual Upper Clutha A & P Society Show. This is a fun filled weekend where both town and country combine to compete, entertain and educate each other. Please read through this schedule and get your entries in as we value your continued support.

To be successful the Show relies on community support, entertainment and good competition. We believe that we have the full support of the community and always welcome comments and the offer of assistance in the organisation of this iconic event.

Have you considered membership to the Society? It is great value with \$20 providing two adult gate passes for each day of the show (\$40 value) as well as communications throughout the year and discounted entry fees in some classes. Although you can visit Pembroke Park for free most of the entertainment is within the actual Showground including this year having performances from the Topp Twins throughout the Saturday for extra entertainment.

We are again anticipating full sections in many events and this is due to the hard work done by clubs and societies encouraging their members to showcase their particular interest. This looks fantastic whether it is in the Home Industry section, the Livestock sections or in the Grand Parade.

The Grand Parade is an integral part of our Show and we have the expectation of a full equestrian turnout. As with other A&P Shows in our area prize monies will not be paid if horses are not paraded.

Please take time to read this schedule and get your entries in before the appropriate closing date. It is important that entries are made out in the name that you wish to be recorded on prize cards and trophies. Please send entry fees in with your entry forms as we cannot process them without the appropriate fees paid.

Finally I thank all our sponsors whose generous support helps us keep entry, trade and gate charges to a reasonable level while still enabling us to put on a world class event. Please support those that support us. In particular thank you to CRT our strategic partner.

I look forward to seeing you all at the 2010 Upper Clutha A&P Society Annual Show and best of luck.

Phill Hunt
President

SHEAF TOSSING

The Origin of Sheaf Tossing

The origin of sheaf tossing came about before we had mobile harvesters. All grain crops ie oats, barley and wheat being the main crops were reaped by a binder that made the sheaf. A sheaf was about 30cm in diameter tied with a piece of string round the middle, and weighing about 10kgs. Some grass crops were also handled this way ie cocksfoot, timothy fescue. Eight to ten sheaves made a stook which was left for 10 to 14 days to ripen. Oats in the early days was subject to smacking the grain out before it was harvested. However by putting it in a sheaf the grain was retained in the sheaf. At the time of harvest the sheaves were pitch forked onto a dray and carted to a stationary mill which took 3 to 4 men to operate. Many were driven by traction engines before tractors came onto the scene. So hence in the early days sheaf tossing was a keen competition at shows and other functions.
