EVENT RULES

Phases:

Show Jumping:

The course will be set up with 8 jumps of varying heights and riders will jump up to a maximum of 6 jumps each fence is worth the amount of points it is numbered with (e.g. 1 is worth 1 point, 2 is worth 2 points etc). Each obstacle jumped clear will entitle the competitor to claim the points as indicated by the number on that obstacle. No points will be awarded for an obstacle knocked down or refused. No obstacle may be jumped more than once.

After jumping their chosen 6 jumps and passing through the finish flags the rider will have the option to jump **ONE** of two “joker” fences worth bonus points. They may choose to take neither. If the joker is knocked down or refused its value in points will be deducted from the total for the round.

Please Note:

- The 8th jump (highest in course) will not exceed the max height for the class. Jokers may exceed the height for the class.
- Jumps may be jumped in any order and from any direction but may not be jumped more than once.
- The competitor must start through the start flags and jump up to 6 obstacles of their choice and finish through the finish flags. The starting and finishing lines can be taken in either direction.
- Should a competitor jump more than 6 obstacles (excluding the Joker) or jump any obstacle more than once, they will be eliminated.
